TIMELESSNESS IN TIME IN A COSMOS WITHOUT BEGINNING AND END

[DOWNLOAD](#)

Books of Existence. Paperback. Condition: New. 80 pages. Dimensions: 9.0in. x 6.0in. x 0.2in. In this book a new view, different from what is explained by big-bang theory about the creation of structures in the universe, is presented. According to this alternative cosmology the universe has not begun at a particular moment of time, and is not expanding since an explosion has taken place at the beginning of creation. Instead, the universe is eternally existing without any beginning or end in time. This alternative story is based on the analysis of observational data in different wavelengths, and revolves around the idea that there exists an eternally unchanging design, which appears in a similar way in different scales. It proposes a fractal universe, which is made of smaller replicas of itself, which in turn are made of even smaller images of the same design, and so on. . . hierarchically embedded in smaller and smaller scales. In it time exists as a consciousness generated by the fluctuating world entangled in a pattern which remains timeless. The book delves with the ideas of a hidden order and deals with the concepts of chaos theory, fractal geometry and evolution of fractal knots. Through it the readers will be acquainted with a universe, fine-tuned between equilibrium and disequilibrium, swinging between order and chaos, where no accident can exist without being absorbed in a purposeful action of creation. Nothing is inseparable; no accident can ever derail the course of its path of fulfilling the eternal design, which upholds the existence of all united as ONE. It opens the vision of a profound universe where one may be able see God as inseparably one with all existing from the micro to the macro cosmos. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La...
