Are you looking to lose fat while also building muscle, creating a lean, toned body? If so, a Calisthenics workout is right for you. When it comes to bodyweight training, there is nothing more frustrating than losing fat, without building muscle on top of that fat loss. Most people just aim for a lower number of the scale, but if you want a powerful, functional body, you should also be gaining muscle, as you are losing fat. This is where Calisthenics training comes into play. It is one of the best, most effective ways to improve your overall health. But how can you learn the right calisthenics exercises, the right nutrition for your workout, and the right lifestyle to compliment your new body? This is where Progressive Calisthenics comes in! In this book, you will learn twelve of the top bodyweight exercises, designed to make you not just lose weight, but actually build muscles and improve flexibility. You will finally have not just a body that looks great, but a body that is strong and is primed to take serious punishment. These exercises make you live longer and your body stay healthy longer. Addition to that, you will find the most effective advanced bodyweight training exercises and 30-Day Challenge to take your body to the whole new level! And the best part of this book is that the results happen FAST! No more waiting around for your diets or workout regimen to show results. With this program, you will begin to see the fat melt away and the muscle mass packing on. What could be better than that? Only twenty minutes a day and you will be seeing...
