

## Preparation and Characterization of Sputtered Molybdenum Oxide Films

Filesize: 3.02 MB

### ***Reviews***

*This is basically the finest publication i actually have go through till now. We have read and i also am confident that i am going to likely to read through again once more in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.*

***(Prof. Adell Lubowitz)***

## PREPARATION AND CHARACTERIZATION OF SPUTTERED MOLYBDENUM OXIDE FILMS

To read **Preparation and Characterization of Sputtered Molybdenum Oxide Films** PDF, make sure you refer to the hyperlink below and save the file or gain access to other information which might be in conjunction with PREPARATION AND CHARACTERIZATION OF SPUTTERED MOLYBDENUM OXIDE FILMS ebook.

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | for Sensor Applications | Molybdenum oxide ( $\text{MoO}_3$ ) is a material finds potential applications due to its abundance and attractive properties such as catalyst, gas sensing and electrochromism.  $\text{MoO}_3$  thin films exist in three phases namely: orthorhombic - phase, monoclinic beta- phase and hexagonal phase. The crystal structure of beta-  $\text{MoO}_3$  in which  $\text{MoO}_6^{+}$  octahedral form a three dimensional network by sharing the corners with each other and well suited as a catalyst for number of chemical reactions. Recently, nanocrystalline oxide films attracted much for their promising applications in building of nanodevices and nanosensors.  $\text{MoO}_3$  films in nanocrystalline form also find applications in sensors and lubricants. This book restrains the optimized conditions of pure  $\text{MoO}_3$  thin films on glass and silicon substrates using RF-Magnetron sputtering and investigated the structural, morphological, optical, electrochromic properties and sensor applications. | Format: Paperback | Language/Sprache: english | 136 pp.
