An award-winning, step-by-step guide to college admissions that helps students through every aspect of the application process and gives them a proven approach to make their application stand out from the rest. College admissions has never been more stressful. Not only is admission ruthlessly competitive, with more and more qualified students applying each year, but the application process has become more confusing than ever before. This strategy is summed up in a four-word phrase: be alike but spike. This means that the applicant must perform on par with other students applying to similar colleges, while also working to stand out from the pack--like a spike on a graph--in one area. (Ironically, it's often the well-rounded student, an ideal many applicants strive for, who gets rejected.) In! shows students how to create that distinction by identifying and layering...
