Brand New Book. Excerpt from Health Primers, Vol. 1: Exercise and Training Impressed by these considerations, several eminent medical and scientific men of London have combined to prepare a series of health primers, of a character that shall be entitled to the fullest public confidence. They are to be brief, simple, and elementary in statement, and they will be filled with substantial and useful information, suitable for the guidance of grown-up people. Each primer will be written by a gentleman specially competent to treat his subject; while the choice of topics and the critical supervision of the books will be in the hands of an able and responsible committee. The series will deal with the chief hygienic subjects that are of vital importance to the individual and the family, and will form a cheap and compendious popular library of health-manuals which should find a place in every household.
