Brand New Book ***** Print on Demand *****.Excerpt from Water-Power at Niagara Falls to Be Successfully Utilized: The Niagara River Hydraulic Tunnel, Power and Sewer Co.; Its Objects, Facilities and Resources, Inducements for Manufacturers, Etc The idea of employing the great Water Fall at Niagara, not only for furnishing power for a local manufacturing city of the largest proportions, but also for transmitting power to other places through the agency of Electricity, Compressed Air, etc., has been discussed with increasing public interest for many years. No practical attempt to realize this great project has, however, been made till this year, when a company of business men of the Town of Niagara calling themselves The Niagara River Hydraulic Tunnel, Power and Sewer Company was organized, and, having been incorporated by act of the New York State Legislature passed March 31, 1886, (a copy of the act of incorporation is hereto appended) have, in connection with the best engineering skill in the State, applied themselves seriously to the task of directly utilizing the immense power of Niagara River. The great importance of this undertaking, together with...
