However, union leaders did not embrace the legal framework for gender equality mandated by their American occupiers; rather, they pressured thousands of women labor activists to assume supportive roles that privileged a male-centered social agenda. By the late 1950s, even Japan's radical socialist unions had reestablished the primacy of conservative gender norms, channeling women's labor activism to support political campaigns that advantaged a male-headed household and that relegated women's wage-earning value to the periphery of the household economy. By showing how unions raised the wages of male workers in part by transforming working-class women into middle-class housewives, Christopher Gerteis demonstrates that organized labor's discourse on womanhood not only undermined women's status within the labor movement but also prevented unions from linking with the emerging woman-led, neighborhood-centered organizations that typified social movements in the 1960s - a misstep that contributed to the decline of the socialist labor movement in subsequent decades.
