**RENATO MENEGHETTI. IL CORPO COME TEMPO. IL CORPO COME LUOGO. RADIOGRAFIE.**

SKIRA, Italy. Book. Condition: New. Language: Italian,English . Brand New Book. This volume deals with one of the most original and most interesting creative moments in Renato Meneghetti's career: the Radiografie (x-rays). Beginning in the eighties the cycle of Radiografie is the cycle of cycles, because the conquests of each cycle are resumed and become the building blocks of a tower that becomes taller and taller. Nevertheless the Radiografie are not simply a sum total of what has gone before: they are more, incomparably more. Up to 1981 Meneghetti's art possessed that dignity which was common to much Italian Avant-garde painting: it was well executed, curious and interesting, but nothing more to place it above a state of aurea mediocritas. Suddenly, however, there was a breakthrough in artistic sensitivity, his artistic antennae extended, homed in on death, observed it lucidly. Sharply focused, we could say, he photographed it. Death, like life, is to be found within the body; everything is accomplished within that cage of flesh sustained by bone Meneghetti discovered that the x-ray plate could portray himself as he had never seen before, could take him outside of himself and allow him to investigate inside that other limitless universe: no longer the universe that lies before our eyes, no longer the universe that unfolds in the human mind. Meneghetti transports the x-rayed image onto the coloured canvass. He illuminates or shrouds parts changing the texture of its colours with alcohol. Composed of but a few lines, supported by extremely reduced chromaticity or richly coloured to the point of aestheticism, these Radiografie place their stress on the body, beyond a doubt the most engaging theme of the last century's closing years from Louise Bourgeois to Lucian Freud. Meneghetti uses new means and places us before the issue...
