FLOW AND HEAT AND MASS TRANSFER IN LAMINAR AND TURBULENT MIST GAS-DROPLETS STREAM OVER A FLAT PLATE

Springer. Paperback. Condition: New. 58 pages. Dimensions: 8.9in. x 6.0in. x 0.3in. In this book the author presents selected challenges of thermal-hydraulics modeling of two-phase flows in minichannels with change of phase. These encompass the common modeling of flow boiling and flow condensation using the same expression. Approaches to model these two respective cases show, however, that experimental data show different results to those obtained by methods of calculation of heat transfer coefficient for respective cases. Partially that can be devoted...
