Createspace, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. About twenty years ago, I think it was-I won't be certain, though- a man whose name, if I remember correctly, was Wm. L. Yancy-I write only from memory, and this was a long time ago-took a strange and peculiar notion that the sun rose in the east and set in the west, and that the compass pointed north and south. Now, everybody knew at the time that it was but the idiosyncrasy of an unbalanced mind, and that the United States of America had no north, no south, no east, no west. Well, he began to preach the strange doctrine of there being such a thing. He began to have followers. As you know, it matters not how absurd, ridiculous and preposterous doctrines may be preached, there will be some followers.
