VEGATABLE OUTLOOK AND SITUATION: OCTOBER, 1982 (CLASSIC REPRINT) (HARDBACK)

Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Vegetable Outlook and Situation: October, 1982 For the major frozen vegetables, larger raw tonnage and consequently bigger packs will more than offset lower beginning stocks, leaving the largest supplies since October 1 stocks of all frozen vegetables reached a record-high billion pounds. In contrast, canned supplies will approximate last year s level. Processed vegetable prices will probably hold steady in the coming months. The enormous quantity of frozen vegetables on hand this fall may portend some price reductions in the months ahead. In particular, prices of sweet corn, carrots, green peas, and snap beans could come under pressure. Canned vegetable prices have been generally flat this year, and no dramatic changes are likely. However, snap beans and green peas are in fairly short supply, and their prices could rise. In addition, actual tomato tonnage fell short of processors contract intentions. Therefore, there may be some shortages of tomato products later in the marketing year, boosting prices. Overall, the Consumer Price Index for processed vegetables will probably rise 3 to 7 percent during 1983, compared with gains of 6 and 12 percent the 2 previous years. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
