Brand New Book ***** Print on Demand *****.Nikola Tesla wrote My Inventions as a six-part series appearing in the magazine Electrical Experimenter s February, March, April, May, June, and October 1919 issues. Tesla is The Man out of Time, the Man who could have built you a cell phone back in the early 1900s, the man who invented radio, and the man who is chiefly responsible for useful modern electricity. What better way to learn about the greatest scientist to be forgotten by history books than to read his life story in his own words?.
