Brand New Book ***** Print on Demand *****.Excerpt from Construction of Maps in Relief: Illustrated The writers have for some years made relief-maps by various methods of construction; and a description of some of the forms employed, together with the results obtained, may be interesting to some, as well as helpful to others who may desire to undertake the construction of these beautiful relief-pictures. The person attempting the work should have a fair knowledge of field and cihoe-practice, with some mechanical skill in the use of tools and the manipulation of material.
