Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.An awesome awareness on peers psyche, which is usually found only in psychology books, is presented here for the masses in an easily comprehensible way. Young people strive to fit in and gain social status with their peers. For fear of peer rejection and victimization they give into the threats of popular peers in the group. They develop close friendships, but breakups also occur. The dynamics of peer relationship continues through school days well into adulthood. The quality of peer acceptance provides an important clue to an individual's emotional and intellectual wellbeing. Skills to overcome peer pressure for purposeful achievements begins at home, when children themselves begin to settle their squabbles with siblings, the first peers of any child. Youngsters unruly behaviour is an outcome of a complex combination of peer harassment and their own strength of mind. Considering the ill effects of disturbed peer relationships on young minds, the earlier they are addressed, the more opportunity there is to set troubled teenagers on the right path. Appropriate knowledge of psychology of peer dynamics can help accentuate the positive effects and minimize the negative effects of peer influence. This book imparts that knowledge. It extensively covers relationship issues, including that of sexual harassment and relational aggression, faced by all at some point and at different levels of relationships. Written with both parents and youths in mind, it is a must-read for anyone in search of answers on the subject of peers.
