Mittal Publications, New Delhi, 1992. N.A. Book Condition: New. Xii+198pp ?Industrial relations? is a major force which influences the social, political and economic development of a country. In the changing industrial environment and is the context of the fast technological development in India, employers and trade unions have to face the challenge of finding new ways to stimulate greater productivity and job satisfaction among the workers. Worker is no longer to be treated as having a commodity value only but he should be treated essentially, as a partner in the organisation and is entitled to dignity and fair treatment. It is a comprehensive work which has been brought out with the main object of clarifying underlying modern participative management. It will undoubtedly prove immensely useful not only for workers and employers but also for Govt. Departments and Undertakings in facing many issues which they often find themselves confronted with.
