The Truth About UFOs, by noted new age scientist and thinker Shirley Young is a dynamic treatise on what the future will look like. In four chapters, her contemplative impressions consider the twenty-first and extend into the fifty-fourth century, and contain strong probabilities that will generally exist for mankind. In a truly enlightened and esoteric fashion, she offers sublime and succinct missives in such areas as art, science, education, housing, health, and transportation to offer a glimpse at what human beings have in store in regards to government, religion, world peace, world order, and even fashion. Her candid, straightforward observations predicate free will of humans and the acceptance that other life forms exist outside of our own human experience. For readers who believe in the influence of energy, this guide illustrates its power.
