

## The Perfect Machine Building the Palomar Telescope

By Ronald Florence

Harper Perennial. Paperback. Book Condition: New. Paperback. 451 pages. Dimensions: 8.4in. x 5.6in. x 1.2in. Almost a half-century after its completion, the 200-inch Palomar telescope remains an unparalleled combination of vast scale and microscope detail. As huge as the Pantheon of Rome and as heavy as the Statue of Liberty, this magnificent instrument is so precisely built that its seventeen-foot mirror was hand-polished to a tolerance of 21,000,000 of an inch. The telescope's construction drove some to the brink of madness, made others fearful that mortals might glimpse heaven, and transfixed an entire nation. Ronald Florence weaves into his account of the creation of the perfect machine a stirring chronicle of the birth of Big Science and a poignant rendering of an America mired in the depression yet reaching for the stars. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

*This book will never be straightforward to start on looking at but extremely exciting to read. I actually have read through and that I am sure that I am going to go through once more again in the future. I am happy to explain how this is the very best book I have read through in my individual lifestyle and may be the best publication for at any time.*
