Reviews

Thorough guideline! Its this type of good read. It is really simplistic but shocks from the 50 percent from the publication. It is extremely difficult to leave it before concluding, once you begin to read the book.

Twb Press, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. On a planet far far away, a young veterinarian is drafted into service by his autocratic government. Dr. Cy Berger s family is imprisoned and threatened with torture and death if he doesn t successfully run the first-ever interplanetary veterinary service. His mission is to travel the galaxy, spread goodwill, and offer veterinary services to the inhabitants. He s given a spaceship furnished with the finest medical equipment and lab facilities, and his crew includes one veterinary assistant, one very perceptive AI, and one government agent, a racist, religious zealot. Therein lies the ulterior motive for such lavish expenditures, which have nothing to do with Cy s profession and more to do with espionage in advance of a galactic invasion. As Cy treats a variety of alien life-forms, he builds trust and allies and falls in love, but his top priority is to find a way to free his parents and save the galaxy from impending war.
