Excellent electronic book and helpful one. Better then never, though i am quite late in start reading this one. You wont truly feel monotony at whenever you want of your time (that's what catalogues are for relating to when you question me).

Third World Press,U.S., United States, 2008. Paperback. Condition: New. Language: English . Brand New Book. Challenging modern America s perspective on love, history, and race relations, these poems deviate from such techniques as free verse and abstraction to concentrate on structured forms such as odes and Italian sonnets. The unifying idea of the book also comes from the classics: the poet views black artists as Prometheus figures, giving fire and inspiration to American culture even when they are barely acknowledged. The poetry s message, however, is gritty and emotional--and sometimes deliberately sentimental--as it pits the joys of love, romance, and racial pride against the sorrows of slavery and segregation.
