Single in the City - A Survey of Chinese Single Women records the lives and emotional experiences of some single women in contemporary China. Its subjects are 20 single women, living in China's major cities, remaining so for different reasons. They include confirmed singletons, iron-willed unmarried mothers, as well as those who depend on rich men. Their individual personalities shine through their stories - resilient, kind gentle - as do the multiple and diverse social pressures and problems that contemporary Chinese women face.
