The publication is simple in go through preferable to fully grasp. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

A mysterious cloud with living beings in it, is hovering over Earth and electrifying certain members of the human population with currents and volts. Those hit are given supernatural powers without instruction. And schools form to help. The electrical life forms tell a story of how Satan has brought an ancient alien feud to Earth, where the aliens abduct humans hit by lightning towards a mysterious purpose and then return them. Demons are, also, trying to flare battle on Earth and come in the way of the bounty of the clouds. These emissaries of evil battle human heros with supernatural abilities - hit by the clouds, as the electrical life forms claim. At the same time that these events are taking place, the electrical life forms continue, God and His angels are looking to assist the forming heros on Earth from the encroachments of evil, and wish to aid humanity to better harvest the clouds. The Divine also enlightens, that the source of religion is one and that the faithful should unite for the final rapture. But will Evil succeed in delaying the rapture or in swaying humanity one last time? In a last act of malice, it just might.
