ATTP 3-39.32 provides doctrinal guidance for personnel who are responsible for planning and executing physical security programs. It is the basic reference for training security personnel. ATTP 3-39.32 is organized into 11 chapters and 6 appendixes, which provide additional details on selected physical security topics. A brief description of each chapter and appendix follows. Chapter 1, Physical Security Challenges, describes how the physical security program supports the principles of the protection warfighting function through the coordinated efforts of policies, plans, and procedures that are specifically designed to achieve a strong protection posture. Chapter 2, Physical Security Planning, describes how planning committees, such as the protection working group, play an integral part in the planning process. The chapter introduces the Army Military Police Security Management System countermeasures as the primary planners tool for physical security surveys and inspections. Chapter 3, Site Design Approach, lays the foundation for initial security design planning considerations that are required for new construction, renovation, and temporary structures. The chapter discusses perimeter and internal security systems. Chapter 4, Protective Barriers, describes emplacement considerations of barriers and fencing (to form the perimeter of controlled areas) and passive and active vehicle barriers (to impede, channel, or stop vehicle traffic). Chapter 5, Security Lighting, provides the principles of security lighting and technical information for the minimum levels of illumination and lighting uniformity required for various applications. Chapter 6, Electronic Security System, describes the five major components of electronic security systems (ESSs) and provides technical data concerning electronic interior and exterior sensors and alarm systems. Chapter 7, Access Control Points, discusses the policies, technical guidance, and procedures used at Army access control points (ACPs). The chapter describes the four ACP...
