*Good electronic book and useful one. It usually does not expense a lot of. It is extremely difficult to leave it before concluding, once you begin to read the book.*

After the opening articles on Child Psychology, Method, etc., in Vol. I., the taking up of the specific subjects in the school was begun by the articles on Kindergarten, the Infant School, Dictation, and Drawing. This volume will be found to be entirely devoted to the further consideration of actual subjects of instruction in elementary and secondary schools. The discussion of these subjects of instruction will be finally completed in Vol. III., which will also contain some general articles still dealing with the Child as a Mind, and thus clear the way for taking up the consideration of the Child as an Animal, in Vol. IV.
