Excerpt from The Charlotte Medical Journal, Vol. 15: A Monthly Journal of Medicine and Surgery; July, 1899 Antipyretics are the remedies with which We reduce temperature and when we come to consider the fact that nearly all diseases with which we meet are accompanied with more or less fever, we at once see that these remedies have a wide field of usefulness in therapeutics. Notwithstanding the fact that some diseases may run a long and fatal course without fever, we will always find the careful physician taking the temperature of his patients often, and when he finds any considerable rise above the normal, some antipyretic is usually given. This practice may be, and I believe is, the proper one to pursue in most cases, the mistake we usually make, I think, is in the selection of an antipyretic.
