Rolling out the Plan of Salvation: A Study in Leviticus is the only in-depth individual or small group study guide available on Leviticus. The participant learns to understand not only the different sacrifices but also the order in which each had to be presented and why the order was crucial. If the leader chooses to use the suggested guide in the back of the book, the participants will get a sensory challenge to better understand an aroma pleasing to the LORD. Participants have five short daily lessons to complete each week. Answers to the questions are located in the back of the book to ensure the teachable moment is not missed during the time of study. Leviticus teaches Gods people how to become a holy nation of priests who can come before a holy God without fear. Maybe the most exciting outcome is the increased understanding of the many passages in both the Old and New Testaments that mention the various offerings. Suddenly, those passages have added meaning and become more endeared to the reader. This item ships from La Vergne, TN. Paperback.
