Brand New Book ***** Print on Demand *****.Excerpt from Mind Studies for Young Teachers There are many teachers who know little about psychology, and who have a desire to be better informed concerning its principles, especially its relation to the work of teaching. For the aid of such, this book has been prepared. But it is not a psychology, - only an introduction to it, aiming to give some fundamental principles, together with something concerning the philosophy of education. Its method is subjective rather than objective, leading the student to watch mental processes, and draw his own conclusions. Little of mind-science, that is of use to the teacher, can be learned by reading books. No subject is more dependent upon observation and experiment than this. When mind-growth and mental activities are understood by teachers, instruction will become scientific, and not, as is now too frequently the case, empirical. If this little volume shall serve to hasten the time when teaching shall be more a profession and less a vocation, the author will have accomplished all he designed. How To Use This Book. Edward Everett Hale, in his book, How to Do It, discusses the matter of reading. The substance of what he says may be given in the form of the following ten rules: 1. Don t try to read everything. 2. Read two books on the same subject, one solid, one for pleasure. 3. Don t read a book for the sake of saying I have read it. 1. Don t try to read everything. 2. Read two books on the same subject, one solid, one for pleasure. 3. Don t read a book for the sake of saying I have read it...
