paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 195 Publisher: China Electric Power Press Pub. Date :2011-6-1. Electrical system grounding techniques for the general higher education second five planning materials. Power System Grounding technology is divided into 10 chapters. mainly including electric shock hazards and safe voltage electrical equipment grounded. then zero and the electric shock protection. earth and water resistivity. grounding frequency grounding resistance calculation. calculation of impulse grounding resistance. grounding design. grounding system design. installation and maintenance. buildings and power running control facilities lightning protection grounding device parameters and soil resistivity measurements. This book can serve as institutions of higher learning Electrical Engineering and Automation senior undergraduate and graduate students in materials. engineering and technical personnel are also available for researchers or power reference. Contents: Preface Chapter 1 Introduction Section II the basic concepts of ground power system neutral grounding grounding Classification Chapter III of electric shock hazards and safe voltage electric shock Section II of physiological phenomena and human resistance voltage of the first security three human causes and prevention of electric shock electric shock electric shock first aid measures Chapter IV grounding of electrical equipment. then zero and low voltage distribution systems of electric shock protection grounding Section II Section III protective grounding of electrical equipment to protect low voltage electrical equipment connected first zero v four bonding V residual current operated protective devices Chapter earth and water. earth resistivity resistivity Section II Chapter V of water resistivity-frequency grounding resistance of grounding a single ground electrode section calculated Section II of the grounding resistance of grounding resistance of grounding combination III ground of the grounding resistance of natural soil resistivity values ??of V IV soil resistivity is not uniform artificial grounding grounding...
