Excerpt from New and Rare Plants, Bulbs, Fruits, 1900 This comparatively new lettuce heads the list for general use, home, market and forcing. The general color is a clear bright green, which is never bronzed by outdoor growth un der any climatic conditions. It is medium in size, the eh tire plant measuring about ten inches in diameter. It has a peculiar habit of heading, the head standing clear away from the outer leaves, which lie ?at on the ground, a valu able feature for outside culture, securing an equable moist ure around the root of the plant. It has but little stalk the head is very solid. The leaves are thin, slightly crumpled, very crisp and entirely without that heavy veining which makes some of the best sorts bitter to the taste. Very valu able for growing under glass, where its delicacy of color and crispness are improved, making it a valuable acquisition to the market grower. (see cut.) Price, 5c. Pkt.; oz. Loc.
