Createspace, United States, 2012. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. Contrary to the openly stated of many in the latter 20th and early 21st centuries, ghouls, ghosts, and other horrors frequenting the nightmares of those who consider themselves to be otherwise rational and scientifically minded, are just as real and frightening today, as they were in the 19th and preceding centuries. In Macabre2 Sherrrod Colsne finds himself confronted with circumstances and events that shatter his own steely sensibilities. The Weerwolf Problem (Dutch spelling) forces Monty Weston, assistant, friend, and de facto son to Colsne, to reassess all that he had come to accept about the monsters that had once been part and parcel of most people s belief systems prior to The Industrial Revolution, and the subsequent explosion of scientific discovery. No less nerve rattling is the truth behind a series of freakish animal deaths in Upstate New York, found in The Golden Dart.
