In this brilliant and profound study the distinguished American anthropologist Marvin Harris shows how the endless varieties of cultural behavior -- often so puzzling at first glance -- can be explained as adaptations to particular ecological conditions. His aim is to account for the evolution of cultural forms as Darwin accounted for the evolution of biological forms: to show how cultures adopt their characteristic forms in response to changing ecological modes. A magisterial interpretation of the rise and fall of human cultures and societies. -- Robert Lekachman, Washington Post Book World Its persuasive arguments asserting the primacy of cultural rather than genetic or psychological factors in human life deserve the widest possible audience. -- Gloria Levitas The New Leader An original and... urgent theory about the nature of man and at the reason that human cultures take so many diverse shapes. -- The New Yorker Lively and controversial. -- I.
