

A First Course in Algebra (Classic Reprint)

By Frederick C Kent

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A First Course in Algebra Two ends have been kept in view in the preparation of A First Course in Algebra. First, to give the student who will take no more algebra a good general working knowledge of the subject sufficient for any elementary course in science, industrial life, business, etc.; second, to furnish a thorough foundation for the more advanced courses of those who are to continue their studies in the university. That one of the chief aims of algebra is the solution of problems which are either difficult or impossible to solve by arithmetic, and that the equation is the means used in obtaining such solutions, are prominent features of this text. In fact, the equation is made the central idea of the course. The order of topics is such as to employ a principle as soon as it is mastered in the solution of equations. Care has been exercised, however, not to break entirely with conventional usage nor to carry the central idea to an extreme by sacrificing too much in order...

Reviews

Completely essential go through book. I actually have go through and i am sure that i am going to going to read yet again yet again later on. It is extremely difficult to leave it before concluding, once you begin to read the book.

Thorough guideline! Its this type of good read. It is really simplistic but shocks from the 50 percent from the publication. It is extremely difficult to leave it before concluding, once you begin to read the book.
