Createspace, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.A world in political and economic disarray. A world polluted beyond hope. Civilization looked to space to survive and prosper. A privatized International Space Station jumpstarted space research, exploration, and colonization. Led by Dillon Andrews and his team of scientists and engineers, an unimaginable discovery was made. A lost probe, the Vagabond 13, mysteriously returns with a treasure trove of information. A hope of a new start was rekindled. The return of the probe and its valuable data starts a journey into space that pits the good of mankind versus the greed of power. Mankind's instinct to survive is thrust against insurmountable odds of space and laws of physics. Unimaginable new encounters await Dillon and his crew through time and space.
