VISIONS UNUSUAL by Margo Kirtikar PhD About the book Heaven meets earth in the human who is both physical and divine. In the history of the world the human family is today at the portal of a major turning point. These changes are already in process and many all over the globe are contributing to this at different levels. Over the last millennia human beings evolved and developed the five physical senses. The sixth and seventh invisible senses, mind and intuition were accessible only to the few. What characterizes modernity is that, what was available to the few has now become personally accessible and individually important to humanity at large. This book gives you an in depth insight into several important historical themes of the metaphysical world, at the same time it translates this knowledge in a way that makes it possible for the individual to integrate metaphysics into modern everyday life. The themes of this book deal with the different phases of consciousness, individual, group and global. Part I and II explains the theory of how spirituality differs from religion, how the human interacts with the cosmos, metaphysics, the importance of independent thinking, mind and intuition development and more. Part III offers practical exercises on how to discover and develop the divine in you. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
