St Martin's Press. Paperback / softback. Book Condition: new. BRAND NEW, The Birth of Biopolitics: Lectures at the College de France, 1978-1979, Michel Foucault, Michel Senellart, Francois Ewald, Alessandro Fontana, Arnold I Davidson, Picador is proud to publish the sixth volume in Foucault's prestigious, groundbreaking series of lectures at the College de France from 1970 to 1984 "The Birth of Biopolitics "continues to pursue the themes of Foucault's lectures from "Security, Territory, Population": having shown how eighteenth century political economy marks the birth of a new governmental rationality--seeking maximum effectiveness by governing less and in accordance with the naturalness of the phenomena to be governed--Michel Foucault undertakes a detailed analysis of the forms of this liberal governmentality. This book raises questions of political philosophy and social policy that are at the heart of current debates about the role and status of neo-liberalism in twentieth century politics.
