It is just one of my personal favorite books. I was able to comprehend every little thing out of this published e-publication. It is extremely difficult to leave it before concluding, once you begin to read the book.

Communications; Read Before the Cambridge Antiquarian Society; Together With an Article Contributed to the Bibliographer , And Two Papers Not Previously Published; With Thirteen Plates** This volume consists chiefly, as will be seen, of matter which has already appeared in print. It may perhaps be thought that some of the papers were hardly worth reprinting, either because they were sufficiently accessible before, or because they have done their work. As to the latter point; most of them are valuable not only for their results, but as specimens of method: and in one subject at least, bibliography, such specimens are as much needed as ever. As to their accessibility, it is perhaps true that those who wanted them have been able to see them. But though the Memoranda were much appreciated by a few readers, not many copies were sold, while the illustrations referred to in several of them have long been quite unprocurable. Again, no. XVII of the Cambridge Antiquarian Communications, in which seven of Bradshaw s papers appeared, is rarely to be met with. So there is some reason to hope that in the present form they may have a wider range of usefulness. The plates in this volume are all the work of the Cambridge Scientific Instrument Company, who have bestowed great care upon them with very satisfactory results. I must apologize for the alteration in Plate XIII, which does not now represent the unbound book as it lies open but the first leaf and the last leaf separately.
