## EXECUTIVE INFORMATION SYSTEMS: A GUIDE FOR SENIOR MANAGEMENT AND MIS PROFESSIONALS (HARDBACK)

ABC-CLIO, United States, 1991. Hardback. Condition: New. New.. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. This work highlights the coming age of management information systems for all types of executives by focusing on executive information systems, or EIS. Serving as a data-intensive system, an EIS offers a snapshot of a company's past and present operations as a way of predicting the future. In this book, Robert Thierauf provides a complete picture of executive information systems,...

### Reviews

*This book may be worth buying. I have read and i am confident that i am going to planning to go through once more once again in the future. Its been written in an exceptionally easy way and it is simply soon after i finished reading this publication in which actually altered me, modify the way i believe.*

-- **Faye Shanahan**

*This publication will not be easy to get going on reading but really exciting to read through. it was writtem really perfectly and beneficial. I found out this pdf from my i and dad suggested this publication to find out.*
