paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Publisher: People's Health Publishing House Pub. Date :2004-7-1. Epidemiology is an idea. is to co-promote a belief in human health. Epidemiology in Medicine which has a special status. it is not only a leading preventive medicine discipline. and as a group of science in medical education. medical research and medical services in three areas of the most balance and leverage. widely understood and accepted the epidemiology and way of thinking. not only re-combination of medicine and public health is one of the promising methods. but also the most feasible and useful method (Kerr L. White). In order to meet the social development context with the times. we do in the Ministry of Health under the leadership of teaching materials to further understanding of the three bases and five of the basic requirements. establish requirements. establish an awareness of efforts to basic medical. integration of clinical and preventive medicine of the three ideas throughout the book. For the classic epidemiological methods to attract new attention to the progress of maturity; in consultation with experts and peers on the basis of opinion. decisively removed the molecular epidemiology and management epidemiology. two chapters; the clinical efficacy and prognosis of disease . screening and diagnostic tests . Meta-analysis and evidence-based medicine and adverse drug reaction of several closely related with the clinical research into the contents of each chapter. Meanwhile. the 2003 SARS (severe acute respiratory syndrome) post it to the sudden popularity and the human-caused catastrophic damage. and dealing with SARS exposed the whole story. especially the medical staff to prevent apathy. so that we know to For the prevention of infectious diseases can not be the slightest slack. Therefore. we will...
