Excerpt: . . . syllables wholly by the influence of the secondary accent. Since the tonic accent exercises so great an effect on the syllables which follow it, it is to be expected that it have some influence over the syllable which precedes it; and it does, for in certain portions of the Romance field it has so much power over what precedes that instances occur where even initial protonic vowels disappear under the influence of the accent. It is perfectly natural, however, that the influence of the accent should be greater over the syllables that follow PROCEEDINGS OF SOCIETIES. Scientific Association. (See pp. 69-71 of this Circular. Philological Association. April 19. -- One hundred and forty-second regular meeting. Professor Gldersleeve in the chair. Thirty-one members present. Reviews

This publication is indeed gripping and intriguing. It is actually written in basic terms and not difficult to understand. I am just pleased to explain how here is the greatest publication we have read through during my own lifestyle and could be the best pdf for at any time.

-- **Ervin Crona**

It is in a single of the most popular publications. Sure, it really is engaging, still an interesting and amazing literature. Your life period will be changed the instant you finish reading this book.
