YOUR INNER SELF

Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.An excerpt from the Preface. The brain is the controlling sensitizer-the switchboard-of the entire organism, organic and functional. An insight into its workings cannot fail to be invaluable to any individual. The scientist is no longer satisfied with the older effect psychology which confined itself to observing the results merely of brain activity, but he looks deeper and searches for causes and reasons. If he can discover why a person behaves in such and such a way under certain circumstances rather than in some other manner, he will in time be able to regulate the cause, i. e., the mental process, and wisely to direct the effect, i. e., the behaviour itself. We are beginning to realize that men and women, despite hereditary influences, are not the victims of fatalistic predetermination. They can in large measure become captains of their souls-if they only know how. Knowledge of the inner self is essential to self-mastery. No human being can hope to guide his own...
