

Chemical Processes in Marine Environments

By Gianguzza, Antonio / Pelizzetti, Ezio

Book Condition: New. Publisher/Verlag: Springer, Berlin | nd This book collects the scientific contributions from the lecturers at the 2 edition of the "International School on Marine Chemistry" held in Ustica (Palermo, Italy) from 5 to 12 September 1998. The School was planned with the aim of giving an overview about the chemical processes occurring in the marine environment and the more recent analytical methodologies for their study. The School was organised under the auspices of the Italian Chemical Society and with the financial support of the Marine Reserve of Ustica Island, the Committee for Environment of Italian CNR, the University of Palermo, the Provincia Regionale of Palermo and the Shimadzu-Italia Corporation. The book has been printed with the financial support of the "Assessorato Ambiente" of the Provincia Regionale of Palermo. All the participants, about a hundred including the lecturers and the Organising Committee, are grateful for the generous support of the agencies. A particular acknowledgement from the Editors is to all the lecturers for their availability and courtesy and for the high quality of their scientific contributions. | - Environmental Analytical Chemistry as a Tool for Studying Chemical Processes in Marine Environments.- 1 The Carbonate...
