Oneworld Publications, United Kingdom, 2014. Paperback. Condition: New. Language: English . Brand New Book. As scientists confidently look forward to average life expectancies hitting 100+ years in some Western societies, it s easy to forget how precarious our grasp on good health has been. It is a struggle no better demonstrated than by the myriad and extraordinary measures that humans have gone to - as diverse as animal sacrifice to stem cell transplants - in their quest to stave off death and disease. Acclaimed historian Mark Jackson takes a fresh, global view of mankind s great battle, exploring both Western and Eastern traditions. Examining ancient right through to modern approaches to health and illness, Jackson presents the orthodox and alternative practices and key turning points - sometimes for good and sometimes not - that determined how different cultures tackled disease. The result is a fascinating survey of the complex ways in which medicine and society have shaped one another throughout the ages.
