*Unquestionably, this is actually the very best work by any article writer. It usually does not price a lot of. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

L.A. artist phenom Julia Santos appeared to have it all. Bisexual and hedonistic, she grasped hold of her life with both hands. But unknown to those around her, inside she was lost. While her best friend Carmen, a Domme, gave her a sense of security she'd never felt before, Julia fled from giving herself over fully to her and love. Still reeling from the effects of an abusive childhood, Julia denied her growing feelings for Carmen and ran straight into the arms of adoring men, dominating them with her seductive nature to get what she wanted from them. However, the erotic power she held over them didn't give her the comfort she craved. As she hurled herself further down the path of self-destruction, her behavior caught the attention of the Goddess Fate and her Guardian Angel Daniel. Together they intervene and transport her to the realm between life and death called the Island. There she's given a choice: stay and wait for her next rebirth, or go back and fight to be with the one who had been there for her through every lifetime. Will she take the easy way out and leave all the pain behind, or will she choose the long and hard road in order to have her happily ever after with the Mistress of her dreams?.
