

Business Process Management: 6th International Conference, Bpm 2008, Milan, Italy, September 2-4, 2008, Proceedings

Filesize: 5.75 MB

Reviews

It is one of my personal favorite books. This is certainly for anyone who states there had not been a worth studying. I found out this ebook from my i and dad advised this pdf to learn.

(Delphine Lebsack)

BUSINESS PROCESS MANAGEMENT: 6TH INTERNATIONAL CONFERENCE, BPM 2008, MILAN, ITALY, SEPTEMBER 2-4, 2008, PROCEEDINGS

DOWNLOAD

Springer. Paperback. Condition: New. 399 pages. Dimensions: 9.1in. x 6.1in. x 0.9in. BPM2008 is the sixth international conference in a series that provides the most distinguished specialized forum for researchers and practitioners in business process management (BPM). The conference has a record of attracting innovative research of the highest quality related to all aspects of BPM including theory, frameworks, methods, techniques, architectures, standards, and empirical findings. BPM 2008 was held in Milan, Italy, on September 24, 2008, and was organized by the Information Systems Research Group of the Department of Electronics and Information of the Politecnico di Milano. The present volume contains the research, industry, and prototype demonstration papers accepted for presentation at the conference. This year, we received 154 full paper submissions. These submissions came from authors located in 36 different countries, geographically distributed as follows: 101 submissions originated from Europe, 19 from Australia, 16 from Asia, 14 from America, and 4 from Africa. As in previous years the paper selection process was extremely competitive. After a thorough refereeing process in which every paper was reviewed by between 3 and 5 program committee members, only 23 of the 154 submissions were accepted, leading to an acceptance rate just below 15. Among the 23 accepted papers, there are 20 research papers and 3 industry papers. In addition to these 23 papers, 3 invited keynote presentations were delivered by Paul Harmon (Executive Editor and Founder, BPM Trends, USA), Michael Rosemann (Queensland University of Technology, Australia), and Peter Dadam (University of Ulm, Germany). We are very grateful to the keynote speakers for their contributions. In conjunction with the main conference, nine international workshops took place the day before the conference. These workshops have fostered the exchange of ideas and experiences between active BPM researchers, and stimulated discussions on new and emerging issues in line with the conference topics. The proceedings with the papers of all workshops will be published in a separate volume of Springer's Lecture Notes in Business Information Processing series. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
