SAGE Publications Inc, United States, 2002. Hardback. Condition: New. Language: English . Brand New Book. `It is an easy book to read and has the merit of combining in a balanced way the broad theoretical background of early years education with a practical approach providing information addressed to practitioners - Education Studies `The book abounds with practical suggestions for developing children s knowledge and skills in various domains. It presents concisely the rationale for an ethical approach to working with young children and their families which emphasizes genuine collaboration between professionals and parents as well as involving children in their learning. The book deserves to be a well-thumbed text for individuals and a copy should be in any professional library - Support for Learning `I am very impressed with Educating Children with Special Needs in which Louise Porter uses her psychological perspectives to give a sound overview of the important problem areas and practices of the field, and describes a large number of procedures through which teaching and other forms of support can be effectively individualized. Overall this is an excellent book which merits, and should receive, a wide readership among special educators, early childhood teachers and the many professional who are interested in and may practice in this field - The Psychology of Education Review `In scope and spread this book deserves to become a standard text for policy makers, practitioners, those in training and their tutors. I welcome this book for its coverage of typical and atypical development in young children and its emphasis upon an ethical and principled approach to working with young children and their families - Professor Sheila Wolfendale, Director of the Doctorate in Educational Psychology programme, University of East London Most young children with additional educational needs are enrolled in their local childcare centre...
