Synopsis : This study of entrepreneurship in Europe is a greatly expanded and updated version, in English, of the author's thesis published in Dutch in 1996. Four countries are chosen as representative of all the tax systems existing within the EC: The Netherlands, Germany, France and the United Kingdom. The author spares no detail in his examination, explaining such important elements and distinctions as the following: how the entrepreneur is viewed under the varying tax regimes and in the different countries; entrepreneurship and the professions; incentives; sources of income; partnerships; companies and shareholders; calculation of taxable profit; justification for a separate corporate income tax; taxation of foundations and societies; and the possibility of fiscal unity among Member States for VAT purposes.
