SELF-RELIANCE: RALPH WALDO EMERSON (PAPERBACK)

[DOWNLOAD](#)

Createspace Independent Publishing Platform, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Self-Reliance Ralph Waldo Emerson Self-Reliance is an 1841 essay written by American transcendentalist philosopher and essayist Ralph Waldo Emerson. It contains the most thorough statement of one of Emerson s recurrent themes, the need for each individual to avoid conformity and false consistency, and follow their own instincts and ideas. It is the source of one of Emerson s most famous quotations: A foolish consistency is the hobgoblin of little minds, adored by little statesmen and philosophers and divines. This essay is an analysis into the nature of the aboriginal self on which a universal reliance may be grounded. Early in his career the writer Isaac Asimov co-authored the textbook Biochemistry and Human Metabolism. While reviewing the galley proofs of each author s contribution, he and his two colleagues would frequently encounter differences in matters such as the spelling, capitalization and hyphenation of technical words and terms. Rather than undergo the laborious task of harmonizing all these trivial variations, hearkening to the foolish consistency statement they would all call out Emerson when one of these was encountered and pass directly on to the next item.
