Condition: New. Publisher/Verlag: Macmillan Education | Creating a 21st Century Learning Experience | This volume in the ALLC series offers current and soon-to-be professionals in the ESL/EFL field a comprehensive guide to using technology to enhance the English language learning experience. It presents practical insights based on real-life classroom experiences, including contributions from teachers in various countries. | This volume in the ALLC series offers current and soon-to-be professionals in the ESL / EFL field a comprehensive guide to how to make the best use of technology to enhance the English language learning experience. The book has a predominant focus on practical insights that are based on successful real-life experiences at the classroom and study program level, including contributions from teachers in various countries. Nevertheless, there is also a strong foundation in existing research and literature as they relate to the needs of English language teachers. To promote reflective and exploratory practice, there is plenty of ‘food-for-thought’ for the reader. Although pre-service and in-service teachers represent the primary audience, the book is likely to be just as useful for language program administrators, researchers, curriculum and materials writers, and e-learning developers. | 1.
