

Fantasies Of Femininity - Reframing The Boundaries Of Sex

By USSHER, Jane M

U.S / Rutgers University Press, 1997. Soft cover. Book Condition: New. No Jacket. Representations of woman's sexuality across cultures and throughout history position women as both a site of danger and of desire; yet paradoxically, also as asexual, invisible, defined always in relation to men, confined to a patriarchal prism which distorts or denies their own experience. Drawing on academic texts - psychoanalytical, historical, feminist and sociological - and popular culture, both historical and contemporary, the author argues that academic and cultural representations have had a direct influence on individual women's experience of their own sexuality. Through interviews with women and analysis of diary and interview material from Sussex university's mass observation archive, the means by which women regulate these competing messages in an effort to achieve a positive sexual identity will be revealed. A 1st edition paperback, in new condition. (416 pages).
