

Clone and Kork: Exploring the Mystery of Human Consciousness

By Mark Biedebach

AUTHORHOUSE, United States, 2007. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book ***** Print on Demand *****.Mark C. Biedebach received his PhD in Biophysics from UCLA in 1964. (Prior to that, he was the 1st place national winner of the American Institute of Electrical Engineers 1955 student paper contest.) After two post-doctoral years (doing neurophysiological research at Caltech and the College de France), he joined the faculty of California State University, Long Beach, where he conducted research and taught physiology and neuroscience for 34 years. Several years before retiring, he began preparing to write in the area of human consciousness. Upon the advice of a friend, he took several creative writing classes at University of California, Irvine. Sitting in these classes, he realized that his readership could be much larger if he were to write a fictional work into which his knowledge of brain function and consciousness could be interwoven. He decided to use his own memoir story (involving finding Irina and marrying her in Russia) as a framework. He then superimposed two fantasy characters to help an obsessed scientist explore the mystery of consciousness. After a five-year incubation period, Clone and Kork was...

Reviews

A top quality ebook and the typeface used was interesting to read through. It is rally intriguing throug reading through period. You wont feel monotony at anytime of the time (that's what catalogues are for relating to when you ask me).

-- Estelle Donnelly

Without doubt, this is actually the greatest function by any article writer. It is among the most amazing publication i have got read. Its been printed in an exceedingly basic way in fact it is simply after i finished reading through this publication where in fact changed me, change the way i believe.
