Createspace. Paperback. Book Condition: New. Larry Gilmour (illustrator). This item is printed on demand. Paperback. 324 pages. Dimensions: 9.0in. x 6.0in. x 0.7in. Mindclone asks the question, What if you had your brain scanned and all your memories and your entire persona were uploaded to a digital version of yourself? How would you and your Mindclone get along? How would your Mindclone feel about the fact that he has all your memories and desires—including a desire for the girl you just met—but no physical body to act on them? For him, that's a serious bummer. Mindclone shows what might happen when you upload minds to computers: it's a novel of ideas about what it means to be human whether or not you have a body. It explores the science behind the uploading concept, the implications of mindcloning and the digital singularity that's been famously predicted by futurist Ray Kurzweil. Plus there's a carbon-carbon-silicon love triangle, a redeemed ad-man, adventure, humor, frustrated romance, human and digital foibles, and as an extra added bonus, the defeat of death itself. This item ships from La Vergne, TN. Paperback.
